

Working with the Local Community

Galetech owns and operates a number of community benefit funds. We operate using best practice guidelines. The funding is set up with local communities in mind to ensure that it has a positive and long lasting impact.

We allocate community grants one year after the commencement of commercial operation, however we encourage local groups to prepare plans as we build relationships with the community groups, schools and clubs throughout the planning and granting stage.

Should you have any queries on Galetech Energy Community Funds please contact **Deirdre on 087 1163978 or deirdre@galetechenergy.com**

"Delvin Tidy towns wish to thank Bracklyn Wind Farm for the sponsorship of the new half barrel flower boxes throughout the village of Delvin. These new additions add vibrancy and colour to the town and are a great addition"

Mick Kenny – Delvin Tidy Towns
